

# Hopkins BME Faculty Positions in Imaging Research

*The Johns Hopkins University  
Department of Biomedical Engineering*

The Department of Biomedical Engineering at Johns Hopkins University is seeking tenure track faculty at all levels in translational research in imaging. Particular areas of interest for the department are: developing novel imaging techniques for diagnosis and therapy guidance, and the development of fundamental imaging techniques. Strong collaborative research programs involving clinician scientists and basic scientists in the Johns Hopkins School of Medicine, and imaging scientists in the Whiting School of Engineering will be encouraged and supported. Successful candidates will be expected to develop a vibrant extramurally funded research program.

These positions will be considered open until filled. Please submit, via email and in MS Word or PDF format only, a *curriculum vitae*, a statement of research goals, and the names, e-mail addresses and phone numbers of three references to:

Elliot McVeigh, PhD  
Chairman, Department of Biomedical Engineering  
emcveigh@bme.jhu.edu

The Johns Hopkins University is an Equal Opportunity/Affirmative Action Employer. Women and minorities are strongly encouraged to apply.
