Position Announcement - Assistant Professor - Biomedical Engineering

The College of Engineering at the University of Arkansas is soliciting applications for a tenure track faculty position at the rank of Assistant Professor in Biomedical Engineering. Candidates must have a PhD in Biomedical Engineering or a closely-related field at the time of application. The duties of this position include: (1) developing and sustaining an externally-funded research program leading to national and international recognition; (2) teaching and mentoring undergraduate and graduate students, postdoctoral fellows and other research personnel in the area of biomedical engineering; (3) performing service activities commensurate with the position; and (4) interacting with other researchers across campus to establish an interdisciplinary research program.

About the Department/College/University/Northwest Arkansas Area

The Department of Biomedical Engineering, launched in Fall 2012, is home to nearly 225 undergraduates, 40 graduate students and ten faculty members. The Department occupies 8600 sq. ft. of newly remodeled office and teaching lab space in the John A. White, Jr. Engineering Hall and over 12,000 sq. ft. of state-of-the-art research lab space in the Engineering Research Center. Faculty research expertise includes: biomaterials; cellular and molecular engineering; cancer detection and therapy; cardiovascular biomechanics and mechanobiology; biomedical imaging and optics; regenerative medicine; bioseparations and biomolecular simulations. Located in the stunning Ozark Mountains, the University of Arkansas is the nation’s seventh fastest-growing public research university and consistently ranks among the top public universities and best educational values in the United States. Founded in 1871 as a land grant institution, the state’s first public university is among the two percent of universities that meet the Carnegie Foundation’s classification for highest level of research activity. For more information about the University, see http://www.uark.edu.

U.S. News ranked Fayetteville as the #5 best place to live in the U.S. based on quality of life, job market and value of living. Home to Wal-Mart, Tyson, and JB Hunt, the region offers exceptional opportunities for research partnerships, internships, and post-graduation employment, as well as access to high-end amenities, world-class art, culture, entertainment, and outdoor recreational opportunities. For additional information about the area, see http://hr.uark.edu/careers/apply/live-better.php.

How to Apply

Applicants are asked to submit a PDF file that includes: (a) their letter of application, (b) a comprehensive curriculum vita, (c) three-page statement of research expertise and plans, (d) a one-page statement of teaching interests, and (e) names and complete contact information of three to five professional references. Full consideration will be given to applications received by December 15, 2017. Applications submitted after that date will be reviewed as necessary. Applications should be submitted via http://jobs.uark.edu/postings/22586

The University of Arkansas is an equal opportunity, affirmative action institution. The university welcomes applications without regard to race/color, sex, gender, pregnancy, age, national origin, disability, religion, marital or parental status, protected veteran or military status, genetic information, sexual orientation, gender identity or any other characteristic protected under applicable federal or state law. Persons must have proof of legal authority to work in the United States on the first day of employment. All applicant information is subject to public disclosure under the Arkansas Freedom of Information Act.
